ECO-SOC CLUB

The Eco-Soc Club activity, "ENVIRONMENT QUOTIENT" was organized on 21st August 2019. The main objective of this activity was to foster clear awareness of, and concern about, economic, social, political, and ecological inter dependence. Particularly, to promote for environmentally sustainable, economically efficient and equitably allocated use of water resources. The top 25 students were selected for the main event, namely "Strategy for Water Management Techniques".

The students were divided into 5 groups and given five minutes time to analyse and present their strategy for managing water crisis. The teams were evaluated by the judges on the criteria of oratorical skill, creative ideas, relevancy to the topic and feasibility of the solution. The best team was awarded with certificates and cash prize.

	MOHITH. M	III	MECH	ENGG	

The second Eco-Soc Club activity for the academic year 2019-20, "BUILDING SOCIAL EQUITY" was organized on 17th September 2019. The main objective is to analyse to solve inequality faced by the society as part of the new sustainable development agenda, whose goals are specifically targeted to be achieved by various discriminations. The event started with a preliminary quiz on current affairs. The top 15 students were selected for the main event, "Strategy Planning". The topics covered were: Education Development, Tourism, water management, women in sports and health care. The main event divided the students into 5 groups and were asked to speak on their given topic which was derived from current inequalities faced by the society. The participants gave energetic stances for their case and had executed their case with innovative ideas for building social equity in the society.
